Releases:

**101 Charts for Trading Success**

By Zak Mir

**Kindle** Edition

Launch Date: 3 September 2012

Using insider knowledge to reveal the tricks of the trade, Zak Mir's *101 Charts for Trading Success* is the essential guide that explains the most complex set ups in the market.

Charting provides a clear way of predicting price action and hence gaining riches. How to spot a takeover target, a profits warning, the trading traps, bread and butter cash making catalysts and gifts.

Executed correctly using Zak's methods, charting is a way of delivering high probability percentage trades and investments that remove the task of trawling through company accounts, financial ratios, and interviewing megalomaniac CEOs. Reading the message of the price action shown by the charts gives you a basis to predict where the stock market may be going and what traders are thinking.

Detailing over 80 stock market events *101 Charts* will show you what to look for when you make your day-to-day trading decisions; a must for all future investment millionaires.

As the first person to bring charting to the UK, Zak reveals the tricks of the trade and explains the most complex set ups in the market. He combines his pioneering technical analysis methods with economic and political insight "written in the charts".

In *101 Charts* we find out whether there was a conspiracy in the markets associated with the run up to 9/11, how Gordon Brown could have used charting techniques to avoid selling the UK's Gold Reserves at the bottom, and how investors could have got on the back of Apple just before it started a rally that was to make it the largest company by market capitalisation in the world.

**101 Charts is an easy to understand, illustrated and essential guide.**

ISBN:	978-1-908756-07-7

### About Zak Mir

Zak Mir is one of the UK's best-known chartists, having appeared on both CNBC and Bloomberg TV. He runs Zaks-TA.com, the UK's only serious pure technical analysis website.

Saqib "Zak" Mir was born in Glasgow, Scotland to Pakistani immigrant Doctor parents in 1966. The family moved to London in the early 1970s.

Attending the LSE for only a few weeks before deciding to enter the City, from the early 1990s Zak was a derivatives broker at various companies such as Sucden, Union Cal (later part of Man Group) and Berkeley Futures.

From 2000 the opportunities afforded by the internet and the growth of Technical Analysis led to Zak being *Shares Magazine's* first Technical Editor, whilst providing content for TheStreet.co.uk and UKInvest.com. In 2001 he teamed up with Tom Winniffrith and T1PS.com to found Zaks-TA.com.
